

{Photo reference} [*ilagay mo yung photo reference na nakuha mo sa internet then paste sa AI generator like chatgpt the paste this prompt* }

“Create a new version of this make it more creative and realistic put my watermark at the center of the image [@namepage] ”

Create a high-quality, vertically oriented (1080x1350 for Instagram) split-screen image designed for an emoji voting system.

On the left side, show a realistic, eye-catching scene representing Option A of [put your topic].

On the right side, show an equally engaging scene representing Option B of [put your topic].

At the top, include bold white text asking a simple, direct question like:

“Which would YOU choose?” or “Which one is WORSE?” depending on the topic.

Below each image, place the name of the option in bold text and the corresponding emoji reaction:

👉 = Option A

❤️ = Option B

Add a subtle watermark at the bottom center: @yourhandle.

The style should be optimized for social media: bold, readable, and engaging.

Reference

A high-quality, realistic lifestyle food/health image in vertical format (4:5 or 1080x1350).

Main Visual:

A clean, well-lit close-up of [MAIN SUBJECT – e.g., pistachios / lemons / almonds / coffee / exercise equipment / skincare item] placed in a natural setting (wooden bowl or surface, soft kitchen or lifestyle background, shallow depth of field). Ultra-detailed textures, natural colors, professional photography style.

Inset Visual:

A circular inset image at the center-bottom area showing [RELATED CONCEPT – e.g., sperm cells / brain neurons / heart cells / digestion illustration / muscle fibers], with a thin red circular outline to highlight it.

Text Overlay Style (VERY IMPORTANT – KEEP SAME STYLE):

- Bold, ALL-CAPS, sans-serif typography
- White text for most lines
- Key words highlighted using solid red rectangular background bars with white text
- Strong contrast for readability

Text Layout (Editable Content):

Line 1 (white text): "IF YOU WANT TO [PRIMARY GOAL]"

Line 2 (red highlight): "[POWER WORD / KEY RESULT]"

Line 3 (white text): "START [ACTION / HABIT] DAILY."

Line 4 (white text): "[SUBJECT] HELP(S) IMPROVE"

Line 5 (red highlight): "[FINAL BENEFIT]"

Watermark:

Place a subtle but visible watermark [@YOURHANDLE] perfectly centered on the image, semi-transparent, clean font, not blocking the main subject.

Overall Style:

Clean social media health/fact post, modern Instagram carousel aesthetic, high contrast, professional, educational, realistic lighting, sharp focus, no clutter, no emojis, premium look.

HOW TO REUSE IT FOR ANY TOPIC

Just replace:

- [MAIN SUBJECT] → food, object, habit, or item
- [RELATED CONCEPT] → scientific/visual proof
- [TEXT CONTENT] → your new message
- [@YOURHANDLE] → your watermark (e.g., @quickfacts)

🔥 EXAMPLE QUICK SWAP (Different Topic)

- MAIN SUBJECT: Green tea
- RELATED CONCEPT: Brain neurons
- FINAL BENEFIT: MEMORY & FOCUS

Everything else stays **exactly the same**.
