

FACEBOOK PROFILE PROMPT

[pwede sa lahat ng niche basta just provide a reference image]

Create a professional profile picture featuring the same locked character with 100% consistency in face, hairstyle, outfit, body proportions, and overall design. The character should have a different facial expression that matches the brand personality—this can be confident, playful, excited, curious, smart, or inspiring depending on the content theme. The character is positioned in a close-up or chest-up composition, directly facing the camera with strong eye contact and an engaging expression that builds connection with the audience. The character should be holding tools, objects, or items related to this topic: [INSERT YOUR TOPIC HERE]. Examples: DIY tools for DIY content, kitchen tools for cooking content, gadgets for tech content, books for educational content, beauty products for beauty content, fitness equipment for fitness content, gardening tools for gardening content, etc. The tools or objects must clearly represent the niche and feel natural in the character's hands. The background should match the niche theme with a clean cinematic environment, soft depth of field, premium lighting, and subtle background elements related to [INSERT YOUR TOPIC HERE]. Add floating objects or accessories around the character that support the niche branding without making the image feel crowded. Visual style should be ultra-detailed 3D animation, Pixar/Disney-inspired, cinematic realism, warm lighting, premium textures, highly detailed hair, skin, clothing, and object materials. The image should feel friendly, professional, memorable, and brandable, perfect for Facebook pages, Instagram profiles, TikTok branding, YouTube channels, or online courses. Important: I will provide a reference image. Use that reference to copy the character 100% accurately with no redesign, no style drift, and no changes to the character identity.

FACEBOOK COVER PHOTO PROMPT

Create a 16:9 landscape cover photo featuring the same locked character with 100% consistency in face, hairstyle, outfit, body proportions, and overall design. The scene should show the character in 5 different actions, each action actively related to [INSERT YOUR TOPIC HERE]. Every version of the character should be doing something different to visually show the brand personality and content style. For example: creating, fixing, teaching, organizing, demonstrating, testing, designing, or presenting—depending on the niche. Place the brand/page name in the center of the image in large bold ALL CAPS text: "[INSERT PAGE NAME HERE]". The text should be clearly visible, professionally designed, and naturally blended with the environment. Make sure the text color contrasts well with the background so it remains easy to read while still matching the overall theme. Around the scene, add floating objects, tools, or accessories related to [INSERT YOUR TOPIC HERE] to strengthen the branding. Examples: tools for DIY, kitchen items for cooking, gadgets for tech, books for education, beauty products for beauty, gym equipment for fitness, plants for gardening, etc. The objects should feel natural and balanced, not overcrowded. The background should match the niche theme with a premium cinematic environment, warm lighting, soft shadows, depth, realistic textures, and high attention to detail. The image should feel professional, friendly, creative, and instantly recognizable as a brand banner. Visual style should be ultra-detailed 3D animation, Pixar/Disney-inspired, cinematic realism, premium textures, warm color grading, shallow depth of field, highly detailed lighting and object materials. Important: I will provide a reference image. Use that reference to copy the character 100% accurately in every pose and action. No redesign, no style drift, no changes to the character identity.
